

Dreams Workshop to come true

Douada 10 years
Burkina Faso orphanage

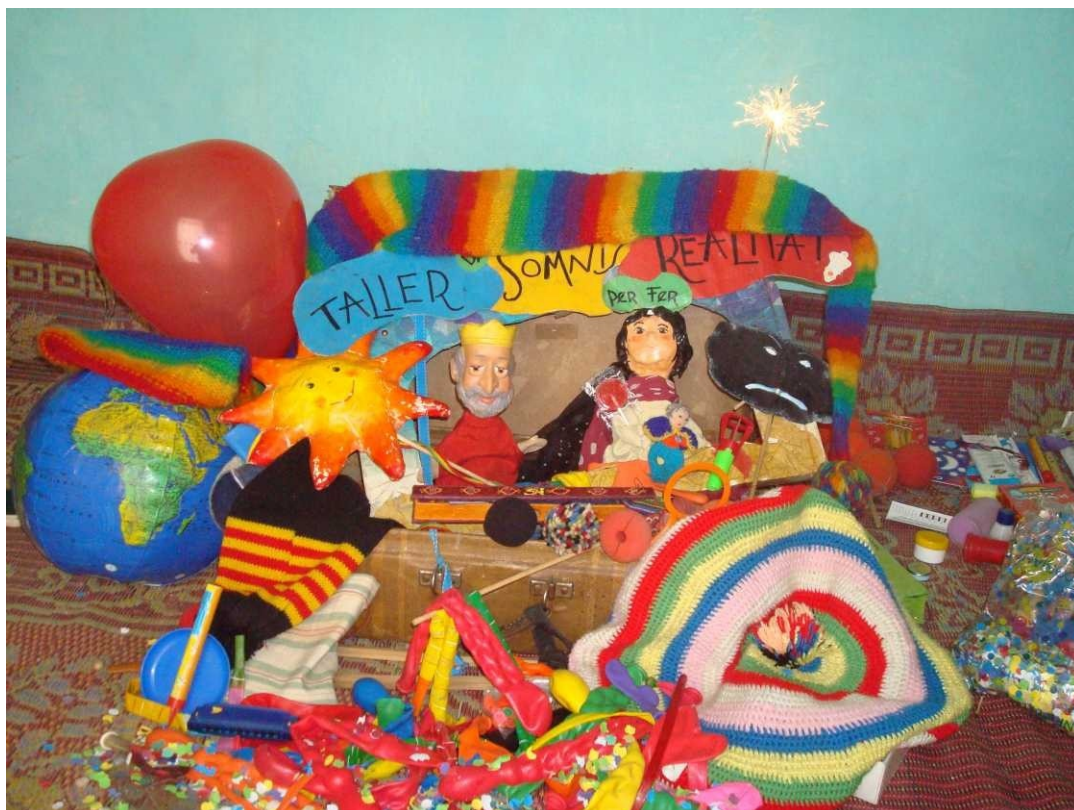

Taller de somnis per fer realitat

Dreams Workshop (DW) is a nonprofit project. We feel that people are born with the hope of finding the invisible thread to achieve the impossible.

I believe that this thread exists in the spark of excitement that draws the eye when a child smiles.

A Smile is a window of hope and imagination, a creative force for a better world. But children with fear lose the ability to imagine that their lives could be whatever they want to be. One child is a dream. If they can't dream they lose.

Dreams Workshop offers show clowns to NGOs, schools, humanitarian organizations... as a tool to help children living in situations of conflict and risk (poverty, disease, war ...) to regain their most precious childhood treasure.

Dreams Workshop

To come true

Once upon a time or two
or maybe three... there
was a boy who had a
dream: he wanted to be
a clown !

NOVELL

THE PEDAGOGIC KIT

Anskari is the clown and creator of Dreams Workshop . Our Workshop offers schools and educational organisations a pedagogical kit in order to share with you his personal experience of more than 14 years travelling around the world collecting dreams and smiles of children who live at risk (war, starvation, diseases and natural disasters) .

It provides an educational tool to make us aware of these other realities as well as working on our perception of basic and important values such as Freedom, Solidarity and Happiness.

Anskari has collected for you the drawings of these children's dreams. He has collected photos that will help us understand how to survive in poverty, how children learn in mud schools in the desert, or how they try to be happy in a refugee camp or at war. After watching the projections and discussing them together we will draw our dreams and Exchange them for the ones the clown is collecting around the world.

We want to create a bridge and a supportive bond between the children and youth of the world with the aim to share and learn to live happily. They are today our tomorrow. Our children will learn through play the value of education, and it will help them find the way to make a better world.

The Pedagogical Kit is 1 hour long and costs 142 € it includes :

- Introduction of the clown and his Dreams Workshop.
- Photos projection of his trips around the world.
- Drawings of the dreams of children who live in orphanages,refugee camps and schools in war zones.

Further information at:

Our project-dream has the support of organisations and people who believe that another world is possible and they fight every day to make their dreams come true.

Always forward
Anskari
